## Regulatory Law

Served with an enforcement notice?

Food hygiene prosecution pending?

Facing a driving ban?

Noise, pollution or nuisance problems ?

Accused of selling alcohol to children?

**We can help you !**

driving offences  
trading standards  
health and safety

waste disposal  
caravan sites  
goods vehicles

alcohol sales  
food safety  
labelling

planning  
smoking  
noise

# For all your **Regulatory Law** needs ... more than just lawyers !

With technical experts working alongside lawyers, we are able to provide more than just legal assistance. Whether the matter is an informal inspection letter, an enforcement notice or a full prosecution, we are able to assist with a wide variety of regulatory problems. Many of our lawyers have experience at both prosecuting and defending, so are ideally suited to dealing with a wide variety of issues.

A nationally recognised leading practice, Horsey Lightly Fynn is an established law firm, well placed to assist in virtually any area of regulatory law.

**“a prominent provider of legal services”**

**Legal 500 and Chambers Guide**

Even the best companies can sometimes fall foul of the law. When this happens, it is best to seek professional help from experts in the field to try and resolve matters swiftly and efficiently

At Horsey Lightly Fynn, we have a **Regulatory Law** team who can advise you and deal direct with enforcement officers or fight to defend any prosecution that might be brought.

Our areas of expertise include:

## FOOD HYGIENE AND TRADING STANDARDS

We defend manufacturers on prosecutions for foreign bodies in food, incorrect labelling and premises standards.

## TRAFFIC

In addition to defending prosecutions for speeding or driving whilst under the influence of alcohol, we represent clients on hearings before the Traffic Commissioners.

## LICENSING

Our established specialisation in the area of licensing makes us your first choice to deal with such matters as reviews of licences, as well as defending prosecutions following test purchase operations or an illegal breach of licence conditions

## PLANNING

We act for clients on a variety of matters, including stop and enforcement notices in relation to unauthorised use or development. In a particular case, we represented a client who demolished a listing building without consent.

## HEALTH AND SAFETY

As well as defending health and safety matters, we lecture around the country to lawyers and enforcement officers on existing and new legislation. Our all-round approach means that we are able to use our experience to our clients' best advantage.

## ENVIRONMENTAL POLLUTION AND NUISANCE

Our expertise includes the experience to successfully defend prosecutions and appeal statutory abatement notices in relation to noise, smoke and water pollution. We also represent clients on contaminated land and waste disposal issues.

## *Quickly and efficiently resolving matters of regulatory law*
