solutions
for you ...*

Horse Lightly Fynn

... more than just lawyers !

PK11/08

For all your **Family Law** needs ... more than just lawyers !

Modern family law does not just deal with resolving issues after the breakdown of a relationship; it also looks to prevent problems before a break up by such means as pre-marital and post-marital agreements, cohabitation agreements, wills and inheritance tax avoidance or reduction.

These are all matters with which our Family Department, headed by His Honour Michael Cook a former circuit and designated family judge, in conjunction with our Wills and Tax department, is well equipped to deal.

Our aim is to achieve an outcome which first and foremost protects your rights but is also fair to both partners with as little stress as possible, so that both of you can move on with the rest of your lives.

**We offer
“a creative
approach to
Family Law”**

Our Family Services include:-

- Pre-marital agreements
- Post-marital agreements
- Cohabitation agreements
- Divorce
- Separation
- Civil Partnership termination
- Division of assets and income
- Pension sharing
- Child residence and contact
- Child maintenance
- Injunctions
- Inheritance Tax and inheritance claims
- Wills

First Meeting

Legal costs are always a concern and for this reason we offer :-

- A free initial interview of up to 30 minutes without any commitment on your part to take the matter further or,
- An appointment with no time limit for which we charge our usual hourly rate.
- Fixed Fee Divorce

Resolution

We subscribe to the Resolution (formerly the Solicitors Family Law Association) code of conduct for resolving family matters in a constructive way that is designed to preserve your dignity and that of your partner in, where possible, a non-confrontational way.

Collaborative Law

We offer this new process for resolving issues and disputes arising out of separation and divorce. It is an alternative to both litigation and mediation. An essential element of the process is that both parties commit to keeping their case out of court or threatening to do so. If one party decides that they wish to go to court then the process terminates. There is therefore a strong incentive to make the process work for all parties.

Quickly and efficiently resolving your family law needs
